TO : AD/RR 25X1A9a
Attn: [REDACTED]
FROM : [REDACTED] 25X1A9a
SUBJECT: Periodic Report No. 3

1. First, several things I wanted to flag you on:

25X1A9a (a) [REDACTED] forwarded a report to his office from the
25X1A9a [REDACTED] which contained some hand-copied [REDACTED] 25X1B4d
25X1B4d [REDACTED] I requested this be called to your attention.
25X1A2g (b) Saw a letter from the [REDACTED] dated 25X1A9a
23 August 1952, numbered [REDACTED], which reported a visit to the Machine 25X1B4d
Tool Exhibit in Moscow. This contained hand-copied [REDACTED]
25X1B4d [REDACTED] Trade literature picked up at this exhibit had already been sent
to the Navy Department, Washington.
25X1X4 (c) Saw a letter dated 28 August 52 to the effect that [REDACTED] 25X1X4
[REDACTED] had
[REDACTED] their requirements for the following items:

25X1X4
[REDACTED]

25X1X4
[REDACTED]

25X1X4
[REDACTED]

Thought perhaps would give you an extra thrump if you knew about this.

25X1B4d
(d) While [REDACTED] last week, noticed

(e) You would be interested in the following reports if you haven't already seen them:

25X1C8

If you have any difficulty getting any of the [REDACTED] let me know and I will get duplicate copies and send them to you. 25X1C8b

25X1C8b 2. Have seen the [REDACTED] on the [REDACTED] 25X1C8b

25X1X7 [REDACTED] and will have it long enough to photograph in about a month. It is now circulating through [REDACTED]. The report contains quite a few trade catalogues. The whole report has been microfilmed and sent back [REDACTED] but don't imagine that you want it in that form. I will photograph the whole works when I receive the Mighty Midget. I think that there will be quite a few bits of paper crossing my desk on which I can use the Mighty Midget. In connection with the Mighty Midget, I would need a copy mat stand. 25X1X7

3. The listing of [REDACTED] held in the [REDACTED] has proceeded much faster than anticipated, and am able now to send you a detailed list. [REDACTED] will help us make the actual contacts when we are ready. I have pressed our interest in [REDACTED], but it seems that it is going to be something that we have to negotiate with individual base commanders. There is quite a drive on here to completely utilize the time of the [REDACTED] so base commanders cannot free men for [REDACTED] except at the working level. 25X1A6a 25X1B4d

4. Have been spending most of my time in the office looking over what [REDACTED] information various people have here in [REDACTED]. Have been looking mainly through the material that [REDACTED] in [REDACTED]. This is mainly [REDACTED] and G-2 reports, including photostats of [REDACTED] log books. Am compiling a card index of all the collateral information I come across, so that if we are ever doing a report on, say for example, [REDACTED] I can quickly see what [REDACTED] can be added to that available from photographs. In this connection, would like to know when the G-2 merger is complete enough for me to feel certain that G-2 information will also be found on film. 25X1A2g 25X1B4d

5. Haven't looked at much of the [REDACTED] that [REDACTED] has yet, but most of it is the type of material that [REDACTED] discussed with you after his trip to [REDACTED]. I can keep it in my files here, but as you realize

there are all sorts of problems about getting it on film.

25X1B4d 6. We have been informing people here in [redacted] that a [redacted] section 25X1X7 does exist, and they have been asked to pass on any reports that contain [redacted] It will start paying dividends soon, I think. To date, the main 25X1A2g pieces of paper that have crossed my desk have been a couple of [redacted] reports, 25X1A9a and, once again the type of material [redacted] discussed with you.

7. [redacted] effort on the [redacted] "Shopping List" is beginning to 25X1B4d have signs of bearing fruit - money has gone out to places where purchases may be possible, and some of the reports look encouraging. By agreement, some of the [redacted] secured by Sovmat will be analyzed by 25X1B4d [redacted] in the [redacted] and the rest sent back to Washington. I will [redacted] all the 25X1X7 [redacted] that is to remain in the [redacted], but would like your thoughts on the 25X1X7 [redacted] that is headed for Washington. Should I photograph it and let you know that it has been photographed, or should I just flag you on the fact that it is headed your way. As a bit of incidental information, I understand that it is possible to buy ZIM automobiles in Helsinki - this is the Russian 25X1B4d copy of the Chevrolet. The [redacted] program has a requirement for a charcoal or wood burning automobile, but none for a gasoline burner. [redacted] who 25X1A9a handles [redacted] activities here in [redacted], is checking with Washington to see 25X1A6a if they are interested. Will keep you posted on developments.

25X1X7

8. Have ordered [redacted] strobe light I described in my last report and am awaiting delivery. Will keep a pretty complete log on its operation so that it may be evaluated.

9. [redacted] is negotiating to secure another man for the [redacted] gather that [redacted] has been quite interested in the [redacted] and the additional man is hand-picked by him. He is [redacted] 25X1C8c [redacted] and, at present, director of about four companies in the [redacted] area. So you see, quite a high powered type man. In fact, there is a feeling between [redacted] 25X1C8c and myself, that he may be just a little too high powered for this stage of the [redacted] It's a question of whether that type of man crawls 25X1B4d with you. It is assumed that his rank and connections with the 25X1B4d War Office would be of great aid in making our way when we go to deal with base commanders to exploit their material. He is also reported to be quite a meticulous problem-solver. [redacted] had dinner with [redacted] last 25X1C8c week, and reported that [redacted] is interested and will probably pay us 25X1C8c a visit sometime this week. [redacted] briefed the General prior to his dinner with [redacted] and tried to paint as realistic a picture as possible.

10. Have looked at several microfilm viewers, but have found it very difficult with the ozaphane we have at present to make a very good appraisal of their adequacy for our job. The ozaphane looks as if it has been left out on a frosty night and it is the early work in which only a small portion of the negative was used for the [redacted] We have a lead into a 25X1B4d governmental agency here that is reported to have a row of approximately ten different types of viewers. We will go there and make a comparative test when we get some of the later ozaphanes.

[redacted] At present, on paper, the T.O. and E calls for a five man (3 officers, 2KM) Technical Intelligence team on the Corps level. These slots are not filled today, but do exist and would be filled if the country mobilized. These teams are authorized a camera, but no flash equipment at present. It is felt that requirements could be laid on these teams to [redacted] in case of war, and [redacted] wants to be in a position to recommend suitable flash equipment and procedure to them.
